CAREER OBJECTIVE

Motivated MERN Stack Developer (Fresher) with hands-on experience through projects and internship in React.js, Node.js, REST APIs, and Responsive Web Design. Strong problem-solving and debugging skills with a passion for building user-friendly web applications. Eager to contribute to real-world development teams and grow as a full-stack engineer.

EDUCATION

- Indira Gandhi National Open University** Kerala, India
Bachelor of Computer Applications *Jul-2022 - Jan-2025*
Courses: Operating Systems, Data Structures, Algorithm design, Networking, Databases

SKILLS SUMMARY

- Frontend::** HTML5, CSS3, JavaScript, React.js, Bootstrap, GSAP
- Backend:** Node.js, REST API
- Databases:** MySQL, MongoDB
- Tools:** Git, GitHub, VS Code

INTERNSHIP

- MERN Stack Intern – Luminar Technolab (Full-time)** Thiruvananthapuram
MERN stack intern (Full-time) *Jan 2025 – Jul 2025*
 - REST API:** Collaborated with team members to improve backend performance and API response handling.
 - Gained hands-on experience with Git version control and code reviews.:**
 - Implemented state management with React Hooks (useState, useEffect):**

PROJECTS(PRACTICAL EXPERIENCE)

- Media Player Web App** — <https://github.com/Sreejith0098/Media-Player-.git> : A responsive media player in React with play/pause controls.Implemented state management using React Hooks (useState, useEffect). Added support for both audio and video playback with a clean UI.
- Recipe App** —<https://github.com/Sreejith0098/RecipeApp-using-React.git>: Integrated a public Recipe API to dynamically fetch and display recipe details. Used React Router for single recipe detail pages.Designed a reusable component-based UI with responsive CSS.
- Gaming Magazine Website** — (**HTML, CSS, Bootstrap, GSAP**): Designed and developed a gaming magazine-style website using Bootstrap for responsive layout.Added interactive animations using GSAP for navbar, hero section.Showcased latest game reviews in a magazine format with Bootstrap cards.Built with a clean, modern UI optimized for desktop and mobile devices.
- Zomato clone (HTML,CSS,Bootstrap)**: Built a responsive landing and restaurant listing UI with Bootstrap grid, cards, modals, and carousel.Designed navbar, hero search, and reusable restaurant cards for a Zomato-like interface.Ensured mobile-first design, accessibility, and performance optimization.Deployed on GitHub Pages
- Trends website clone (HTML,CSS,Bootstrap)**: Developed a fashion e-commerce style website inspired by Trends, focusing on modern UI.Implemented navbar, product listing cards, and responsive grid layouts using Bootstrap.Deployed on GitHub Pages

CERTIFICATIONS

- TCS iON – Communication Skills Certification (Feb 2025)
- Great Learning – Angular 7 for Beginners (Jul 2025)
- Infosys Springboard – JavaScript (Jul 2025)
- Infosys Springboard – React.js, HTML5, CSS3, Bootstrap (Aug 2025)

SOFT SKILLS

- Communication,Teamwork,Leadership,Time Management
